The Bugs are Back at DuPage Children's Museum!

(Naperville, IL) Children swarmed DuPage Children's Museum last week to visit the Insect Zoo sponsored by Anderson Pest Solutions. The overwhelmingly popular response caused the immediate scheduling of a return engagement at the Museum on Thursday, December 10, 2009 from 10:00 a.m. to noon.

Children and adults alike will have the opportunity to feel the tickle of a giant pumpkin millipede as it marches across the palm of their hands. Or listen to the sound a Madagascar hissing cockroach makes. Or touch the strong shell of an Eastern Hercules beetle. Tom Dobrinska, APS Training Director and staff entomologist, and Mark Mayer, APS Service Specialist and Chief Bug Keeper, will be on hand to explain how these "Good Guy" bugs serve as nature's recyclers, contributing to our environment. This event is free with membership or museum admission.

DuPage Children's Museum helps develop curiosity, creativity, thinking and problem solving in young children via interactive exhibits and programs that make learning fun for children and adults playing together.

The Museum is located at 301 N. Washington Street in Naperville, Illinois, a quick walk from the Naperville Metra train station. Parking is free and the building is wheelchair accessible.

DuPage Children's Museum is a top Chicago-area cultural attraction *where learning comes in to play*™! For information about hours, museum admission and membership packages, visit www.dupagechildrensmuseum.org or call (630) 637-8000.

###
